

Charging Carts For EDUCATION

Secure and Protect

Cold-rolled steel, heat-resistant separators, & mechanical anti-theft doors prevent device theft, damage, & tampering from, while electrical safety features protect against voltage & current overloads.

UV Sterilization

Effective & chemical-free. This no-hassle disinfecting method lets you eliminate the harmful bacteria & viruses that can make your students sick.

Show Your School Spirit

Want to use your school colors or even your logo? No problem. JACS' Charging Carts feature a wide-range of customizable features.

More Learning, Less Waiting

If your students use it, you can charge it, & **fast!** JACS' Charging Carts are compatible with laptops, tablets, Chromebooks, & more with movable separators for greater device flexibility.
