

TD191 4G LTE USB DONGLE

Secure and reliable internet connection for wherever life takes you. Pairing **JACS TD191 4G USB LTE Dongle** with a Data Nano SIM card will deliver a fast, secure, and reliable internet connection. Simply insert the Nano SIM card into the JACS dongle, plug the JACS dongle into the device, and experience a world-class high-speed connection. The TD191 is compatible with any device that offers a USB port such as laptops, hotspot routers and tablets. This seamless plug-and-play install provides an on-the-go connection and JACS's sleek, compact, light-weight design slides into your pocket.

JACS TD191 4G USB LTE Dongle lets you easily access the internet anywhere with global roaming bands in North America, Europe, Australia, New Zealand and Taiwan.

STORAGE

Micro SD card storage extends your device storage

COMPACT

Fits all kinds of working environments. Small enough to fit in the palm of your hand

EASY INSTALL

Plug and play installation with Windows, MacOS and Linux **

CUSTOMIZING YOUR TD191 4G USB LTE DONGLE

HARDWARE CUSTOMIZATION

JACS Solutions can customize the TD191 to optimize the dongle for your specific devices and needs. The TD191 is available in black or white and can be whitelabeled or branded for your organization.

FIRMWARE CUSTOMIZATION

Firmware customization*** available for APN settings or Linux systems. The TD191 is also Firmware-Over-the-Air upgradeable.

*Consult with JACS for target countries' LTE bands before deployment

**See device specifications on reverse side for system compatibility

***Customization may lead to product feature changes, which need evaluation by JACS
