

CHARGING CARTS

Charge, secure, and store your tablets with **JACS Solutions commercial-grade Charging Carts**, equipped with UV Sterilization and Smart Fan Management—perfect for healthcare providers, education institutions, public safety facilities, and more.

Take the worry out of managing workplace tablets, smartphones, and Internet devices with JACS Solutions' secure and customizable charging carts. Built with industrial-grade materials, you can safely charge, secure, and store up to 60 devices simultaneously. Features like UV Sterilization reduces healthcare-associated infections in medical facilities and classrooms. Smart Fan Management automatically activates to keep your devices cool. And, you can customize your carts by choosing from a wide range of hardware specifications, global certifications, and private labels.

UV LIGHTS

UV Sterilization is an effective, chemical-free, no-hassle, and cost-effective disinfection method

SMART FAN

Automatically regulate the internal temperature to keep your devices cool

HIGHLY SECURE

Sturdy, cold-rolled steel body with antitheft doors to help prevent device theft, damage or tampering.

CUSTOMIZING YOUR CHARGING CARTS

HARDWARE CUSTOMIZATION

Choose from a wide range of optional features—from charging ports, smart control panels and extra security, to country- and region-specific certifications, colors, and even your company logo.

DEVICE AND CABLE FLEXIBLE

Compatible devices include tablets up to 10", smartphones, handsets, and Internet devices. The removable dividers allow you to utilize them for more bulky equipment. Charging is fast and easy with Micro USB to USB, USB-C to USB, and Lightning to USB cables.
