

CHARGING CARTS

Charge, secure, and store your laptops and Chromebooks with **JACS Solutions commercial-grade Charging Carts**, equipped with UV Sterilization and Smart Fan Management—perfect for healthcare providers, education institutions, public safety facilities, and more.

Take the worry out of managing your laptops and Chromebooks with JACS Solutions' secure and customizable charging carts. Built with industrial-grade materials, you can safely charge, secure, and store up to 45 devices simultaneously. Features like UV Sterilization eliminates bacteria and viruses reducing infections in offices, medical facilities, and classrooms. You can also customize your carts by choosing from a wide range of hardware specifications, global certifications, and private labels.

UV LIGHTS

UV Sterilization is an effective, chemical-free, no-hassle, and cost-effective disinfection method

SAFETY

Electrical safety features that protect against voltage and current overloads to prevent device damage

HIGHLY SECURE

Sturdy, cold-rolled steel body with antitheft doors to help prevent device theft, damage or tampering.

CUSTOMIZING YOUR CHARGING CARTS

HARDWARE CUSTOMIZATION

Choose from a wide range of optional features—from charging ports, smart control panels and extra security, to country- and region-specific certifications, colors, and even your company logo.

DEVICE AND CABLE FLEXIBLE

Compatible devices include laptops, Chromebooks, and tablets up to 15.7". The separator can easily be taken off the cart providing greater flexibility with device dimensions.
