

# TD0301 4G LTE WI-FI HOTSPOT

Secure, Mobile & Intelligent

The JACS **TD0301** 4G LTE Wi-Fi Hotspot is a high-speed mobile hotspot solution for up to 10 simultaneously connected devices that can be uniquely customized to support specialized business or institutional applications. Its compact, lightweight design makes it easy to transport and perfect for unobtrusive placement in a home, school, or business. The TD0301 firmware customization allows complete control over pre-loaded applications and default system settings.

## Customization Benefits

Empower your workforce with value-generating solutions designed specifically to meet the needs of your business.

### Hardware

- Long product life cycle
- Seamless infrastructure integration
- Certified and Compliant

### Firmware

- Highly secure
- Easy deployment
- Controlled user experience

### Connectivity

- Cellular
- Wi-Fi

# TD0301 4G LTE WI-FI HOTSPOT SPECIFICATIONS
