

TT0802 8" 4G LTE ANDROID TABLET

Fast, Flexible & Reliable

The fully customizable TT0802 4G LTE Android Tablet comes equipped with enterprise grade GPS, a large-capacity battery, and bright sunlight-readable screen, and allows support for a multitude of adaptors and connectors. Built with security in mind, the TT0802 features locked-down firmware and a tamper-proof application interface.

Customization Benefits

Empower your workforce with value-generating solutions designed specifically to meet the needs of your business.

Hardware

- Modular platform
- Seamless infrastructure integration
- Certified and Compliant

Firmware

- Secured operating system
- Mobile device management
- Controlled user experience

Connectivity

- Cellular
- Wi-Fi
- GPS
